My thanks to John who kindly sorted the cards and finalised the Competition on the System. A little disappointing that a dozen cards required close attention to check, as the scoring was not recorded in the right place. So with apologies to those who got it last time, here we go again:

During Covid you mark your own card and you are identified as Player A. For a Stableford Comp put your score under 'Score A' and your Stableford points in the 'Points' column. Whoever you are keeping a check score for, identify them as 'Player C' and record their Score and Stableford points in 'Score C'. At the end of the round fill the 'Points' table with your points 'Out', 'In' and 'Total'. Agree scores and sign your card. **The following columns should be blank on a completed Stableford card during Covid - 'Markers Score', 'Score B' and 'Score D'.**
